

-- CONFIDENTIAL DO NOT FORWARD --

Dear Valued Distribution Partner,

Due to the material challenges presented by labor constraints, in bound raw materials and supply chain disruption, we need to make a temporary change to our food base product offering. To best service the business, we are temporarily suspending selected SKU's, in order to better serve a core set of items and best meet the needs of our customers. For the items we are suspending we have recommended substitutions, where appropriate.

Custom Culinary® has always prioritized high service levels for our customers and we are taking these actions to provide more predictability and a faster recovery. We expect this supply disruption to be improved within 90-120 days.

Thank you for your continued support as we work through this challenging situation. We remain highly committed to your ongoing success and our partnership.

Best Regards,

**ROCHELLE GIMBEL**

Sr. Director Field Sales and Corporate Accounts
