

October 4, 2021

Valued Customer,

General Mills Convenience & Foodservice is announcing a temporary change to the packaging design for various SKUs within our 4oz Cup Yogurt portfolio. The change reflects our continued efforts to increase service reliability.

We will be temporarily moving from fully pre-printed cups with Yoplait® and Trix™ design elements, to unlabeled (white) cups with the required nutritional information located on the lid (see photos on following page). The outer corrugate case will remain unchanged. These changes will be strictly cosmetic and will not impact the product. There are no changes to the ingredient/nutrition panels, pallet dimensions, UPC, or pricing.

Product with updated packaging will begin flowing into the market immediately and will continue through at least the balance of calendar 2021. We will provide additional updates as they are available.
