RE: Sunny Fresh® Products

Dear Sunny Fresh® Customer,

At Sunny Fresh, we are committed to being a supplier of choice and we appreciate your continued business. We would like to update you regarding supply status of our prepared egg products. Over the past two years we have been challenged to meet your needs as a valued Sunny Fresh customer. It is clear we will need to work differently to maximize availability going forward. With that in mind, we want to provide updated information regarding paused and discontinued items as we begin the new school year so that you have the most accurate information for menu planning.

To minimize the impact to you, we have put together lists of SKUs that are discontinued and paused, and the suggested replacement for each. Additionally, we have provided a list of products that are currently available. Please know that we are working diligently to return our full portfolio of products despite a range of labor and ingredient availability challenges and appreciate your understanding.

Please work with our customer service team on your orders and needs as they will have the most up to date availability of our product lines. If you have questions in the meantime, please contact customer service at 833-535-5205 or customerservice_protein@cargill.com.

Sincerely,

Cargill Protein Business Team
