

SPOTLIGHT ON PRODUCE

WHAT AM I?

Their pale green skins cover the bright pink interior. They can range between the size of a golf ball to a soft ball, depending on when they are harvested.

HOW DO I GROW?

Radishes grow in the ground and are ready to harvest 3 - 5 weeks after planting.

HOW DOES IT TASTE?

They have a mild flavor that is slightly sweet yet peppery. Unlike other radishes, the flavor becomes mellower the longer it matures.

FUN FACT

You can eat the skin of a watermelon radish. You can eat them raw, cooked or even pickled.

WATERMELON RADISHES
