

ANCHOR HOCKING®

FOODSERVICE™

April 23rd, 2025

Dear Valued Customer,

Due to the government's recent 145% tariff imposed on products from China that went into effect April 2nd, we have made the difficult decision, effective immediately, to pause all our orders from China until further notice. On a very positive note, this is **less than 5%** of the current Foodservice Product Offering and for the most part affects only retail items.

More specifically, the following are the Brands and Product categories impacted:

- Corningware – All products
- Chicago Cutlery – All products
- Anchor Hocking Glass – Fully sourced products, as well as items that include lids and components sourced from China, such as...
 - TrueSeal Food Storage
 - TrueLock and TrueFit Bakeware
 - Bake & Take Totes
 - Pantry, Serveware, and Beverage Dispenser products

Also, as you know, the government recently imposed a 36% tariff on products from Thailand that went into effect April 3rd. We have worked very closely with our Thailand supplier on the Ocean and Lucaris products to minimize that 36% tariff and are very proud to announce that the upcoming tariff increase on the Ocean and Lucaris items is now only an increase of 10% rather than the stated 36% increase. Presently, both the previously announced February 28th price increase and the tariff increase are effective May 1st, 2025.

Shortly, you will receive a detailed listing of what items in your assortment are affected and to what level these are impacted by the 145% tariff for products from China and the nominal 10% tariff for products from Thailand.

Thank you for your continued support and understanding as we work through the challenges, we're all facing due to these new tariffs. Please know we are doing everything that we can to mitigate the impact. If the government chooses to modify the tariff, we will adjust our pricing on Ocean and Lucaris accordingly.

Sincerely,

Bert Filice
President, Chief Sales & Marketing Officer
