

SPOTLIGHT ON PRODUCE

WHAT AM I?

Black Mission Figs have a delicate, purple-black skin that conceals a dark pink flesh. Figs are known to be sweeter than honey if eaten at the proper ripeness.

HOW TO EAT

Black Mission Figs are versatile. They are perfect for jellies, jams, and healthy, on-the-go snacking.

BLACK MISSION FIGS

FUN FACT

It is one of the few fruits that can be grown in all fifty states, and there are a multitude of varieties suitable to each growing region.
