625	6/#10	Crushed Pineapple in Syrup	Critical supply levels. Product on allocation thru October

Our other distribution centers will be managing thru inventory just in time with possible shortages occurring, due to significant volumes purchased above forecasted demand.

Other News / Factors:

- Ports continue to deal with container delays as COVID reduces the available worker pool leading to labor shortages
- LA ports are still experiencing 5+ days of delays prior to docking for inbound container ships from Asia
- Available spot market capacity from Asia remains at all-time lows

Thank you for your continued patience as we work thru these unprecedented market conditions.

Sincerely
Ryan Howard
