June 3, 2022

Dear Valued Customer,

In the spirit of transparency, and as follow up to the letter sent on May 13, 2022, we find ourselves with continued service interruptions in the production of our Gehl's Tortilla Chips. Our supplier had a catastrophic event at one of their production facilities, thus limiting the production capacity for our chips. The combined impact of this event and the well documented and ongoing issues with labor, ingredients, and overall supply chain challenges, give us no other option currently than to place both of our **Gehl's Tortilla Chip SKUs** listed below on a **Controlled Deployment**.

During this deployment, we will manage our limited supply and ensure as many orders as possible are filled using an allocation process based on forecast, recent demand, and market segment. The allocation is projected to last through the end of the August 2022. Your Gehl's Sales Manager and Broker Representatives will be in touch to answer questions and review allocations.

Gehl Sku	Product Description
G05501	Tortilla Chips w/ Paper
G05504	Tortilla Chips with Carry

Our Gehl procurement team has identified a secondary supplier. We are working with them to get demand, logistics and inventory levels established. There is still going to be risk as the materials needed for increased production may be capacity constrained.

We appreciate your partnership and understanding of this very unfortunate situation. Please join us in rooting for our supplier's rapid recovery, as we are as eager to sell tortilla chips as you.

Regards,

Keith Spielman
