Re: Product News – Update NY Bakery Breadstick Inventories

As previously announced in September, NY Bakery took a week of downtime the week of September 25<sup>th</sup>, 2023 to install improvements to the production line which run Foodservice Breadsticks. This project has improved overall production capacity on the Foodservice Breadstick lines. However, demand for the New York Bakery Foodservice Breadsticks remains elevated. As a result of this driver, our available inventory has not grown as quickly as we had planned. Marzetti will continue to monitor open orders and potentially reducing the amounts on order for the remainder of 2023 as a means of protecting service for existing customers. These reductions will be temporary in nature.

Attached is a list of SKU's that could be affected by open order reductions.
