Reliable Equipment

IFD uses GP EnMotion paper dispensers, hand soap and sanitizer dispensers, and Compact coreless bath tissue dispensers, providing a uniform style.

Dispensers are adjustable for paper length, time delay, sensor range, hang mode, and soap volume.

EnMotion towel dispensers use a stub roll transfer, eliminating waste of unused towels from refilling.

Improve hygiene, lowers cross contamination, reduces usage up to 30% decreasing operational expenses.

Extended battery life - up to 150 rolls before changing.

Quality Products

IFD offers white and natural EnMotion paper towels.

EnMotion paper is 10" wide versus commodity paper which is 7.5-8" wide. This extra width helps to reduce the impact of towel usage in your business.

EnMotion hand soap and sanitizer is foaming, reducing usage from liquid dispense, and can be portion controlled between 0.4 and 0.7 mL.

Our GP products meet or exceed the Environmental Protection Agency's Comprehensive Procurement Guidelines for recycled fiber.

Reduces Costs
One-at-a-time towel dispensing reduces waste.

Meets EPA Guidelines
enMotion high capacity roll towel meets EPA recycled content guidelines.

Improves Hygiene
"Touchless" dispensing minimizes the risk of cross-contamination and creates a more hygienic environment.
