## STORAGE & COOKING INSTRUCTIONS

- Keep frozen until ready to use (patties will maintain their freshness 180 days from the code date when held at 0°F or colder).
- Cook patties from frozen state for best results and to reduce cross contamination. Keep raw patties separate from cooked patties and other foods.
- Place on pre-heated (350°F) grill and cook until juices begin to "pool." To keep in juices **DO NOT** press patties with spatula. Turn pattie and continue cooking until juices run clear.
- *Always cook ground beef products to an internal temperature of 160°F.*
