**Re:** UPDATE - Schreiber Foods – Cyber Event

Dear IPAP Partners,

To honor our promise to provide regular updates to you regarding the Schreiber Foods cyber event, we wanted to send you the latest information. Schreiber Foods' systems are slowly coming back online and production lines are beginning to run. While they are beginning to ship and receive product, the cyber event has put them behind and there will still be delays in processing orders.

As a result of these delays, there is a strong likelihood that the product you have ordered will not be received. Your IPAP Member Specialist is looking at alternatives and will keep you informed if another option becomes available. In the event that an alternative option does not present itself, your Member Specialist will reach out to you to discuss next steps.

We appreciate your continued patience during this time.

Regards,

Lynette Girvan  
SR VP Sales and Procurement

Colette D. Ramsey  
Director of Member Development
